## General conditions of contract.

### Item rate tender for works.

- ❑ The institute reserves the right to alter the scope /or reduce quantum of work before issue of work order and the contractor shall not have any claim what so ever on this account.
- ❑ Rates quoted by the contractor in item rate tender in figures and words shall be accurately filled in so that there is no discrepancy in the rates written in figures and words. However if a discrepancy is found, the rates which correspond with the words worked out by the contractor shall be taken as correct.
- ❑ If the amount of an item is not worked out properly by the contractor or it does not correspond with the rate written either in figures or words, then the rate quoted by the contractor in the words shall be taken as correct.
- ❑ When the **rates quoted by the contractor in figures and in words** tally but the amount is not worked out correctly the rate quoted in words by the contractor will be taken as correct and not the amount.
- ❑ The contractor shall take all precautionary measures to prevent entry of dust, dirt and noise pollution to the adjacent buildings and keep the premises neat and tidy, remove surplus materials and rubbish and shall not cause inconvenience to the staff of IIA. If the contractor or his working people or servants shall break, deface, injure or destroy any part of a building in which they may be working or any buildings, road, kerbs, fence, enclosure, water pipes cables, drains, electric and telephone posts or wire, trees grass or garden. The cost of any such damage and risks arising out of this shall be entirely borne by the contractor.
- ❑ A bill shall be submitted by the contractor each month on or before the date fixed by the Engineer- in charge. All the measurements of the work may be recorded jointly by the Engineer-in charge and the contractor or their respective representatives. The measurements will be taken at site, as per latest IS code of practice for measurements. All measurements shall be taken with steel tapes only.
- ❑ The Engineer- in -Charge shall have full powers to the removal from the premises of all materials and bad workmanship, which in his opinion are not in accordance with the specifications.

- The Engineer –in- Charge may require the contractor to dismiss or remove from the site of the work any person or persons in the contractors employ upon the work who may be in competent or misconduct himself.
  
- For working on Sundays, holidays and late hours prior permission will be accorded by the Engineer-in charge on the application made by the contractor.
  
- All works to be executed under the contract shall be executed under the direction and subject to the approval in all respects of the Engineer-in charge who shall be entitled to direct at what point or points and in what manner they are to be commenced and from time to time carried on.
  
- The contractor shall treat all materials obtained during dismantling of a structure, excavation of the site for a work etc as institute’s property and such materials shall be disposed off to the best advantage of the institute.
  
- The contractor shall execute the whole and every part of the work in the most substantial and workman like manner and in strict accordance with the specifications of the CPWD / DOS / Bureau of Indian Standards. In case of any class of work for which there is no such specifications the contractor shall carry out the work in all respects in accordance with the instructions in writing of the Engineer- in charge.
  
- The Engineer-in charge shall have powers to make any alterations in, omissions from, additions to or substitutions for the original specifications, drawings, designs and instructions that may appear to him necessary or advisable during the progress of the work and the contractor shall carry out the work in accordance. The rates for such additional, altered or substituted items of work shall be worked out in accordance with the standard procedure followed in CPWD / DOS.
  
- If at any time after the commencement of the work, the Director shall for any reason whatsoever not require the whole thereof as specified in the tender to be carried out, the Engineer- in-Charge shall give notice in writing of the fact to the contractor who shall have no claim to payment of compensation whatsoever on account of any profit or advantage which he might have derived from the execution of the work in full, but which he did not derive in consequence of the full amount of the work not having been carried out, neither shall he have any claim for compensation by reason of any alterations having been made in the original specifications , drawings ,designs and instructions which shall involve any curtailment of the work as originally contemplated.

- ❑ The contractor shall obtain a valid license under the Contract Labour (R&A) act 1970 and the contract labour (Regulation & Abolition) central rules, 1971 before the commencement of the work and continue to have a valid license until the completion of the work. No labour below the age of eighteen years shall be employed on the work. The contractor shall pay to labour employed by him either directly or through sub contractors, wages not less than fair wages as defined in the provision of the contract labour (R&A) act 1970 and the contract labour (R&A) central rules 1971 wherever applicable.
  
- ❑ The contractor shall at his own expenses arrange for the safety provision as per safety code framed from time to time and shall at his own expenses provide for all facilities in connection therewith.
  
- ❑ The contractor shall comply with all the provisions of the payment of wages act 1936, Minimum Wages Act 1948, Employees liability act 1938, Workmen's Compensation act 1923, Industrial Disputes Act 1961 and the Contractors Labour (R&A) Act 1970 or the modifications thereof or any other laws relating thereto and the rules made there under from time to time. The regulations aforesaid shall be deemed to be a part of this contract and any breach thereof shall be deemed to be a breach of this contract. Security deposit will not be refunded till clearance certificate from Labour Officer is obtained by contractor.
  
- ❑ The contractor shall make his /their own arrangements for water required for the works and nothing extra will be paid for the same, as the water available from the institute source may not be sufficient to meet the construction.
  
- ❑ The contractor shall have all the tools and plants necessary to carry out the work such as concrete mixer, vibrator and hoist. The contractor shall employ one graduate engineer during the execution of the work
  
- ❑ Certified plumbers should be employed by the contractor on the plumbing and sanitary work.
  
- ❑ The standard sectional weights referred to as standard tables in para 5.3.3 in CPWD specifications for works 1977 vol. 1 to be considered for conversion of length of various sizes of M.S bars and tor steel bars in to weight.

Size (diameter mm) Weight Kg/m

Size (mm)	Weight (Kg/m)
6	0.222
8	0.395
10	0.617
12	0.888
16	1.579
18	1.999
20	2.467
22	2.985
25	3.855
28	4.836
32	6.316

- The entire work is to be completed within the period stipulated i.e. **Four (04) months** from the 7<sup>th</sup> day of issue of Letter of Intent/Work Order. The period includes monsoon period also. Time shall be the essence of the contract. After the work awarded, the contractors shall furnish detailed time schedules for the approval of the Engineer-in charge which after approval shall form part of the contract and are to be strictly adhere to.
- The maintenance period for the work shall be twelve (12) months and any defects noticed during the period shall have to be rectified by contractor at his cost, failing which the action taken for maintenance Engineer-in charge shall be final over which the contractor will not have any claim.
- The contractor shall extend all co-operations to the contractors executing works such as electrical, air conditioning etc who might be working at the site and shall permit to use scaffolding etc already put up by him.
- The Engineer-in charge will have the right to get any item of the work included in this tender or not executed through other agencies. Schedule of probable quantities in respect of the work and specifications are enclosed. The schedules of probable quantities are liable to alterations by emission, deduction or additions at the discretion of the Engineer-in charge.
- The rates quoted by the tenderer in the schedule shall be inclusive of all taxes and levies. Such rates should provide the break-up of the cost and applicable taxes, levies etc.

- ❑ Samples of all materials to be incorporated in the works shall be submitted to the Engineer-in charge for his approval without claiming any extra cost. Materials not confirming strictly to the samples are liable to be rejected.
- ❑ The employment of any sub-contractors will be subjected to the approval of the Engineer-in-charge. If at any time during the progress of the work the Engineer-in charge determines that any sub-contractor is incompetent or undesirable the contractor shall take steps immediately to cancel such sub-contractor. The contractor shall be entirely responsible for all the work included in the contract whether executed by him or through his sub-contractors. In particular it may be noted that the contractor shall obtain steel doors and windows from a reputed manufacturer and before placing order for these, the contractor shall obtain the concurrence of the department for the agency from whom he proposes to obtain steel doors and windows.
- ❑ The contractor shall prepare a CPM /PERT /BAR chart/ detailed estimate programme within a week's time of issue of Work Order.
- ❑ All materials and articles brought by the contractor to the work site shall have to be declared at the security gate. Similarly no materials shall be taken out from the departmental premises without proper gate pass which will be issued by the Engineer-in charge.
- ❑ Unless otherwise provided in the schedule of quantities the rates tendered by the contractor shall be all inclusive and shall apply to all heights, lifts, leads and depths of the building and nothing extra shall be payable to him on this account.
- ❑ Sample of various materials required for testing shall be provided free of charge by the contractor. Testing charges, if any unless otherwise provided, shall be borne by the department. All other expenditure required to be incurred for taking the samples, conveyance, packing etc. shall be borne by contractor himself. In case of concrete and reinforced concrete work, the contractor shall be required to make arrangement for carrying out compression strength tests at his own cost including preparation of cubes curing etc. complete.
- ❑ For the purpose of recording measurements and preparing running account bills, the abbreviated nomenclature shall be accepted along with the item number.
- ❑ The contractor shall along the tender submit a schedule of machinery to be used on the work in support of his assurance to adhere to the time schedule specified in the proform given.
- ❑ I /We declare that the work will be carried out as per the specifications in tender document and as per the specifications said above. The items of work not covered in the specifications said above will be carried out as per the specifications in the relevant CPWD specifications, and if not covered in CPWD specifications the work will be carried out as in the relevant IS specifications, and if not covered in the any of the above, the work will be carried out as directed in writing by the Engineer- in charge.

I / We declare that the rates quoted by me/us are on the basis of the above.

Name of the person having power of attorney to sign the contract

## **SPECIAL CONDITIONS**

### **GENERAL:**

**SPECIAL CONDITIONS OF CONTRACT shall be read in conjunction with GENERAL CONDITIONS OF CONTRACT and both form an integral part of contract. Where the two are at variance, the conditions stipulated in this as SPECIAL CONDITIONS shall supersede relevant GENERAL CONDITIONS.**

### **1. SPECIAL CONDITIONS:**

#### **HELMETS :**

As a measure of safety, persons employed on the site, Engineers and Supervisors shall wear a helmet of approved make at all times when they are at the site. No visitors shall be allowed on work site without wearing helmet.

Contractors shall make arrangements to provide safety helmets to all the persons employed on the site, Engineers and Supervisors at his cost.

Contractors shall display safety and warning signs at strategic locations at the site.

#### **CHILD LABOUR:**

Contractor or his Sub-contractor shall not employ any child labourers on the work site, either permanently or temporarily. It shall be the responsibility of the main Contractor to make sure that no child labour is employed at the site. Contractor shall indemnify the Employer against any consequences statutory or otherwise, that may arise out of employing child labour on the site.

#### **TEMPORARY ELECTRICAL WIRING:**

It shall be the responsibility of the main Contractor to make sure that the temporary wiring for construction activity shall adhere to minimum safety precautions as per Electricity Act. All wires / cables shall be drawn on wooden poles properly fixed and shall be drawn overhead.

### **2. LABOUR SHEDS:**

Labour sheds shall be constructed with non-combustible materials like GI sheets or Asbestos sheets. Contractor will not be permitted to use combustible materials such as palm leaves etc., for the construction of the labour sheds.

### **3. MATERIALS SUPPLY / PROCUREMENT:**

No materials will be supplied by the owner. If any increase on the material procurement cost/ labour, P&M will not be entertained for any kind of escalation till completion of the project.

### **4. BILLING. CERTIFICATION & PAYMENT OF BILLS:**

#### **BILLING:**

The contractor shall prepare measured bills after completing the quantum of work as per the standard format and submit the same to the Institute for checking and issue of Certificates for Payment. A proper tax invoice (with breakup of the cost and taxes) shall be submitted and bill shall be settled within 30 days of receipt at IIA.

**PAYMENT OF BILLS:**

The contractor shall be paid by the Employer from time to time based on the certificate for payment

**5. REPAIR OF WORKS DONE BY OTHER AGENCIES:**

The civil contractor shall make up any deficiency in the finishing of the areas damaged by other agencies in a workmanlike manner to achieve uniform finishing of the building at no extra cost.

**6. MATERIAL TESTS:**

The contractor shall provide such assistance, instruments, machines, labour and materials as are normally required for examining, measuring and testing.

The contractor shall install a compression testing machine at site to test concrete cubes and solid blocks.

The contractor shall maintain a record of all the test results in an approved format and periodically submit the same for Architect's/Employer's scrutiny.

**7. PLANT & MACHINERY:**

The contractor is obliged to furnish to the Employer detailed list of equipment, plant, machinery & personnel proposed to be deployed in this project.

**8. CLIENT'S & ARCHITECT'S OFFICES & FACILITIES:**

The contractor shall supply, erect and satisfactorily maintain in good repair until final completion of works, a well lighted temporary site office.

The contractor shall provide at all times for the duration of the contract survey instruments for the exclusive use of consultants as directed by consultants for carrying out of his duties in connection with the contract.

Such instruments which must be approved by the Architect, shall include but not limited to the following:

- One theodolite & tripod capable of reading to 20 seconds
- One level with horizontal circle and tripod.
- Two metric leveling staffs not less than 3.5mtr high.
- One 100 metre rustless steel band, one 30 metre rustless steel tape and two 30 metre linen tapes.
  
- An adequate number of ranging rods drop arrows, wooden setting-out pegs, etc.

The contractor shall be solely responsible for all such instruments and equipment's and shall ensure that they are at all times in good repair and adjustment.

**9. SANITATION & DRAINAGE DURING CONSTRUCTION:**

The contractor shall provide sanitation and drainage facilities on the site as stated subsequently.

The contractor shall strictly control the labour so that the site is not polluted, made

dirty or littered with debris, wastes or the likes. Any person found creating mess or litter or pollution shall be removed from the site immediately at contractor's cost.

The contractor shall provide sanitation facilities at convenient locations on site to preserve the cleanliness of the site. The effluent shall be directed as follows:

- Waste water : Collection and pumping out and disposal off the site in approved manner.
- Sewage : Septic tank provision - sludge to be collected and disposed off at intervals as directed.

The location of the above provisions shall be as marked on the site mobilization scheme drawing.

**10. DISCREPANCIES:**

The contractor shall bring to the notice of the Architect any discrepancies within or between contract drawings and/or the other contract documents prior to preparation of working drawings and commencement of work and shall not proceed with work until the Architect gives clarifications and instructions to proceed.

**11. REPORTS BY CONTRACTOR:**

- 11.1 The contractor shall file daily category-wise labour return. The report shall indicate scheduled requirement against actual strength.
- 11.2 The contractor shall prepare weekly reports of planned and actual progress of work and subsequent week's scheduled work. These will also include material procurement status. These reports shall be submitted to Architect and shall be reviewed during weekly co-ordination meeting.
- 11.3 The contractor shall submit monthly report along with monthly bills.
- 11.4 Further progress charts and schedules shall be prepared by the contractor as directed by the Architect.
- 11.5 The contractor shall submit re-conciliation statement of all the materials supplied by the Client, if any, along with every running & final bill.

# **LIST OF APPROVED MATERIALS**

**CIVIL**

<b>Sl. No.</b>	<b>Material</b>	<b>Make</b>
1	Steel	SAIL – TMT, VIZAG STEEL
2	Cement	ACC/Birla/L&T
3	Acrylic Exterior Emulsion	Asian Paints
4	Plastic Emulsion Paint	Asian Paints
5	Enamel Paint	Asian Paints
6	Aluminium	Jindal, Indal, Hindalco
7	Glass	Saint Gobain, Modi
8	Flush Door	Kutty's Bond Wood, Hunsur Board
9	Vitrified tiles	Nitco/RAK
10	Ceramic tiles	NITCO

**WATER SUPPLY AND SANITARY WORKS**

<b>Sl.No.</b>	<b>Material</b>	<b>Make</b>
1	PVC	Astral/Ashirvad/Kisan/Supreme
2	CPVC	Astral/Ashirvad/Supreme/Prince
3	Ball valves	Astral/Ashirvad/Hawa /R.B.
4	G.M. non-return valves	Kirloskar/Zoloto
5	PVC Gutters	Kisan/approved equivalent
6	C.P. Fittings	Jaguar/approved equivalent
7	Bathroom accessories	Jaguar/approved equivalent
8	SFRC manhole frame and Covers	Southern Concrete Industries/approved equivalent
9	Kitchen sink	Nirali/ Approved Equivalent
10	Anchor bolts/pipe support system	Hilti / approved equivalent
11	CI Grating & MH frame & cover	NECO/ Approved equivalent

# **BILL OF QUANTITIES**

**Bill of Quantities for the work of “Construction of Panel boxes for Radio Antenna and renovation works at Quarters No. 27, 28, 31 & 32 at Kodaikanal Solar Observatory, IIA Kodaikanal”**

**(NOTE: Rates shall be quoted after reading the complete Specifications and understanding site conditions)**

Sl. No	Description of work	Qty	Unit	Rate ( Rs )		Amount ( Rs )
				In Figures	In Words	
<b>A) PANEL BOX FOR RADIO ANTENNA</b>						
1	Earth work in surface excavation not exceeding 30 cm in depth but exceeding 1.5 m in width as well as 10 sqm on plan including getting out and disposal of excavated earth up to 50 m and lift up to 1.5 m, as directed by Engineer-in-Charge:					
1.1	All kinds of soil	26	sqm			
2	Excavation work by mechanical means (Hydraulic excavator)/ manual means in foundation trenches or drains (not exceeding 1.5m in width or 10 sqm on plan), including dressing of sides and ramming of bottoms, lift up to 1.5 m, including getting out the excavated soil and disposal of surplus excavated soils as directed, within a lead of 50 m.					
2.1	Ordinary rock	145	cum			
3	Filling available excavated earth (excluding rock) in trenches, plinth, sides of foundations etc. in layers not exceeding 20cm in depth, consolidating each deposited layer by ramming and watering, lead up to 50 m and lift up to 1.5 m.	140	cum			
4	Providing and laying in position cement concrete of specified grade excluding the cost of centering and shuttering - All work up to plinth level :					
4.1	1:4:8 (1 Cement : 4 coarse sand (zone-III) : 8 graded stone aggregate 40 mm nominal size)	1	cum			

Sl. No	Description of work	Qty	Unit	Rate ( Rs )		Amount ( Rs )
				In Figures	In Words	
5	Reinforced cement concrete work in beams, suspended floors, roofs having slope up to 15° landings, balconies, shelves, chajjas, lintels, bands, plain window sills, staircases and spiral stair cases above plinth level up to floor five level, excluding the cost of centering, shuttering, finishing and reinforcement, with 1:1.5:3 (1 cement: 1.5 coarse sand (zone-III) : 3 graded stone aggregate 20 mm nominal size).	6	cum			
6	Centering and shuttering including strutting, propping etc. and removal of form work for :					
6.1	Suspended floors, roofs, landings, balconies and access platform	33	sqm			
6.2	Columns, piers, abutments, pillars, posts and struts	20	sqm			
7	Steel reinforcement for R.C.C. work including straightening, cutting, bending, placing in position and binding all complete					
7.1	Thermo-Mechanically Treated bars of grade Fe-500D or more.	345	Kg			
8	Brick work with common burnt clay F.P.S. (non modular) bricks of class designation 7.5 in superstructure above plinth level up to floor V level in all shapes and sizes including scaffolding, curing etc; complete all as per specifications in :					
8.1	Cement mortar 1:6 (1 cement : 6 coarse sand)	1.5	cum			
9	Providing and laying 12 mm cement plaster including scaffolding, curing etc. of mix:					
9.1	1:4 (1 cement: 4 fine sand)	33	sqm			
9.2	1:6 (1 cement: 6 fine sand)	42	sqm			
10	White washing with lime to give an even shade to walls and ceilings including scaffolding, cleaning the surface, cost of lime powder and gum, etc; complete all as per specifications :					
10.1	New work (three or more coats)	72	sqm			

Sl. No	Description of work	Qty	Unit	Rate ( Rs )		Amount ( Rs )
				In Figures	In Words	
11	Providing and fixing 1mm thick M.S. sheet door with frame of 40x40x6 mm angle iron and 3 mm M.S. gusset plates at the junctions and corners, all necessary fittings, aldrop and tower bolt etc complete, including applying a priming coat of approved steel primer.					
11.1	Using flats 30x6mm for diagonal braces and central cross piece	5	sqm			
12	Providing and fixing hard drawn steel wire fabric 75x25 mm mesh of weight not less than 7.75 Kg per sqm to window frames etc. including 62x19 mm beading of second class teak wood and priming coat with approved steel primer all complete.	1	sqm			
13	Supply and fixing of HDPE pipe for inserting cable in the trench with necessary fittings conforming to IS: 4984 PE 100					
13.1	50 mm outer dia	300	Rmt			
					<b>SUB TOTAL (A)</b>	
<b>B) RENOVATION WORKS AT STAFF QUARTERS NO.27, 28, 31 AND 32</b>						
1	Earth work in surface excavation not exceeding 30 cm in depth but exceeding 1.5 m in width as well as 10 sqm on plan including getting out and disposal of excavated earth up to 50 m and lift upto 1.5m, as directed by Engineer-in-Charge:					
1.1	All kinds of soil	10	sqm			
2	Demolishing brick work manually/ by mechanical means including stacking of serviceable material and disposal of unserviceable material within 50 metres lead as per direction of Engineer-in-charge.					
2.1	In mud mortar	2	cum			
3	Demolishing cement concrete manually/ by mechanical means including disposal of material within 50 metres lead as per direction of Engineer - in - charge.					
3.1	Nominal concrete 1:4:8 or leaner mix (i/c equivalent design mix)	0.3	cum			

Sl. No	Description of work	Qty	Unit	Rate ( Rs )		Amount ( Rs )
				In Figures	In Words	
4	Demolishing R.C.C. work manually/ by mechanical means including stacking of steel bars and disposal of unserviceable material within 50 metres lead as per direction of Engineer - in-charge.	0.2	cum			
5	Half brick masonry with common burnt clay F.P.S. (non modular) bricks of class designation 7.5 in superstructure above plinth level up to floor V level.					
5.1	Cement mortar 1:3 (1 cement :3 coarse sand)	8	sqm			
6	Providing and laying 12 mm cement plaster including scaffolding, curing etc. of mix:					
6.1	1:4 (1 cement: 4 fine sand)	0.95	sqm			
6.2	1:6 (1 cement: 6 fine sand)	16	sqm			
7	Cement concrete flooring 1:2:4 (1 cement: 2 coarse sand : 4 graded stone aggregate) finished with a floating coat of neat cement, including cement slurry, but excluding the cost of nosing of steps etc. complete.					
7.1	40 mm thick with 20 mm nominal size stone aggregate	8	sqm			
8	<b>Cement Finish:</b> 12 mm cement plaster finished with a floating coat of neat cement of mix : (Note: rate inclusive considering the site conditions)					
8.1	1:3 (1 cement: 3 fine sand)	8	sqm			
9	Colour washing such as green, blue or buff to give an even shade etc; to give an even shade to walls, including scaffolding, cleaning the surface, filling the crevices with lime powder, color paste, gum, etc; complete all as per specifications.					
9.1	two or more coats with a base coat of white washing with lime	981	sqm			

Sl. No	Description of work	Qty	Unit	Rate ( Rs )		Amount ( Rs )
				In Figures	In Words	
10	Distempering with oil bound washable distemper of approved brand and manufacture to give an even shade including cleaning the surfaces, filling the crevices with approved filler, rubbing the surface to achieve desired smooth surface, scaffolding etc; complete all as per specifications					
10.1	Old work (one or more coats)	170	sqm			
11	Painting with synthetic enamel paint of approved brand and manufacture to give an even shade including cleaning the surfaces and rubbing the surface to achieve desired smooth surface, scaffolding etc; complete all as per specifications					
11.1	Two or more coats on new work	330	sqm			
12	Hacking of CC flooring including cleaning for surface etc. complete as per direction of the Engineer-in-Charge.	81	sqm			
13	<b>FLOOR TILES:</b> Providing and laying Ceramic glazed floor tiles of size 300x300 mm (thickness to be specified by the manufacturer) of 1st quality conforming to IS : 15622 of approved make in colours such as White, Ivory, Grey, Fume Red Brown, laid on 20 mm thick cement mortar 1:4 (1 Cement : 4 Coarse sand), jointing with grey cement slurry @ 3.3kg/sqm including pointing the joints with white cement and matching pigment etc., complete.	14	sqm			
14	<b>WALL TILES:</b> Providing and fixing 1st quality ceramic glazed wall tiles conforming to IS: 15622 (thickness to be specified by the manufacturer), of approved make, in all colours, shades except burgundy, bottle green, black of any size as approved by Engineer-in-Charge, in skirting, risers of steps and dados, over 12 mm thick bed of cement mortar 1:3 (1 cement : 3 coarse sand) and jointing with grey cement slurry @ 3.3kg per sqm, including pointing in white cement mixed with pigment of matching shade complete.	67	sqm			

Sl. No	Description of work	Qty	Unit	Rate ( Rs )		Amount ( Rs )
				In Figures	In Words	
15	Providing and fixing 18 mm thick gang saw cut, mirror polished, pre-moulded and pre-polished, machine cut for kitchen platforms, vanity counters, window sills, facias and similar locations of required size, approved shade, colour and texture laid over 20 mm thick base cement mortar 1:4 (1 cement : 4 coarse sand), joints treated with white cement, mixed with matching pigment, epoxy touch ups, including rubbing, curing, moulding and polishing to edges to give high gloss finish etc. complete at all levels. Note: with necessary opening for sink and gas hole, etc,					
15.1	Granite of any colour and shade					
	Area of slab over 0.50 sqm	8	sqm			
16	Providing and fixing Stainless Steel A ISI 304 (18/8) kitchen sink as per IS: 13983 with C.I. brackets and stainless steel plug 40 mm, including painting of fittings and brackets, cutting and making good the walls wherever required					
16.1	Kitchen sink with drain board					
	510x1040 mm bowl depth 250 mm	4	each			
17	Providing and fixing Chlorinated Polyvinyl Chloride (CPVC) pipes, having thermal stability for hot & cold water supply, including all CPVC plain & brass threaded fittings, including fixing the pipe with clamps at 1.00 m spacing. This includes jointing of pipes & fittings with one step CPVC solvent cement and testing of joints complete as per direction of Engineer in Charge. Internal work - Exposed on wall					
17.1	15 mm nominal outer dia Pipes	20	metre			

Sl. No	Description of work	Qty	Unit	Rate ( Rs )		Amount ( Rs )
				In Figures	In Words	
18	Providing and fixing European Water Closet Suite (with polymer cistern) comprising of: A) Best Indian make white glazed vitreous china ware European water closet, with wash down pattern of approved make with trap as mentioned below, conforming to IS: 2556 Part II bearing ISI mark fixed to floor with necessary teak wood plugs, CP brass screws no. 8X37 etc. B) 10 litre capacity approved quality and make polymer low level flushing system with all internal fittings conforming to IS: 7231 fixed to wall with necessary brackets, screws and plugs with matching chromium plated flush bend. C) 15 mm heavy quality flexible PVC inlet connection with CP brass hexagonal check nuts and washers at both ends. D) Black plastic seat and cover of approved make with CP pillar hinges conforming to IS: 2548. E) 15 mm NB CP brass angle - cock/stop cock conforming to IS: 781 of approved make with minimum weight of 400gm on inlet to the cistern. F) 15 mm GI over flow pipe with CP brass mosquito proof jali and check nuts, complete all specified above with approved fittings. (Refer Fig. CED:PH:1.1 of specifications for PH engineering works)					
18.1	with 'S' trap	2	each			

Sl. No	Description of work	Qty	Unit	Rate ( Rs )		Amount ( Rs )
				In Figures	In Words	
19	Construction of Inspection Chamber of internal clear dimensions as mentioned below in 230 mm thick brick masonry using First class country brick walls in CM 1:3 over a bed of 150mm thick CC 1:2:4, plastering with CM 1:2, 12 mm thick on internal, external, exposed top surfaces finished smooth with a floating coat of neat cement, PCC 1:2:4 for benching, channeling, providing and fixing pre-cast RCC M15 frame and cover as mentioned below including cost of necessary steel reinforcement as per drawing, encasing sewers connecting to chamber in PCC 1:2:4, Complete all as specified and directed. ( Ref fig no. CED:PH:8.6 of PH engineering specifications) Note: CC 1:2:4 in the above items is by using 20mm graded granite aggregate obtained from approved quarry.					
19.1	450X450X450 mm (with 450X450mm RCC frame and cover)	4	each			
20	Providing, laying and laying jointing unplasticized PVC pipes and specials of working pressure as mentioned below confirming to IS:4985 including cost of necessary jointing materials, clamps, labour for excavation of trenches, testing, refilling etc., complete all as per specifications.					
20.1	6 kg/sqcm and 110mm OD	60	meter
