System Engineering Group

For a more effective utilization of engineering resources as well as to encourage important long-term technology development programs, the Group Committee-IV is hereby reconstituted as System Engineering Group (SEG). The SEG is headed by Mr A.V.Ananth, Sr PSO and consists of three Divisions and two Sections, as illustrated below:

The Heads of Divisions & Sections will report to the Head-SEG and he will report to the Director. Design and development of new instruments may be jointly evolved by scientists in close discussions with the Head-SEG and others. The Head-SEG will organize periodic reviews of all developmental projects in consultation with the Dean and the Director.

This Order is effective from today until further orders.

P.Sreekumar
