SL No.	Title of the Journal	Publication Fee
1.	Advances in Astronomy	Advances in Astronomy is an Open Access journal. Publishing an article in Advances in Astronomy requires Article Processing Charges that will be billed to the submitting author upon acceptance of the article for publication in accordance with the following table. (YES)
2.	Advances in Geosciences	<p>The production of articles accepted for publication, however, is performed by the Publication Production Office. Therefore, the publication/service charges will only include the charges for the production of an article and its upload onto the web site of the journal, while the evaluation is free of charge. It is recommended that the publication charges are part of the registration fees or that the event/special publication organizers find financial support by third sides. (YES)</p> <p>Category 1 €25 net LaTeX submissions using the Copernicus Publications LaTeX Package Category 2 €30 net WORD submissions using the Copernicus Publications WORD Template Category 3 €35 net LaTeX submissions causing higher expenditure of work due to any LaTeX style and/or difficulties with tables/figures Category 4 €40 net WORD submissions causing higher expenditure of work due to any WORD style and/or difficulties with tables/figures</p> <p>The original manuscript follows the guidelines according to Category 1. The typeset paper shows an amount of 10 pages in the journal style, calculated with €25 net per page = €250 + 19% VAT.</p>
3.	Astrophysics and Space Sciences Transactions (ASTRA)	<p>The service charges are invoiced after the proof-reading (final typeset version of the accepted manuscript). Upon receipt of the corresponding payment, the journal article will be published and is then immediately accessible free of charge for any reader (YES)</p> <p>Price per Page Description Category 1 €35 net LaTeX submissions using the Copernicus Publications LaTeX Package Category 2 €37 net WORD submissions using the Copernicus Publications WORD Template Category 3 €40 net LaTeX submissions causing higher expenditure of work due to any LaTeX style and/or difficulties with tables/figures Category 4 €50 net WORD submissions causing higher expenditure of work due to any WORD style and/or difficulties with tables/figures Copy-Editing (spelling, grammar, sentence structure): €10 net /</p>

		journal page
4.	International Journal of Astronomy and Astrophysics	The open access publication cost should be covered by the author's institution or research funds (\$300 for each paper within ten printed pages, and \$50 for each additional page). Scientific Research Publishing may grant discounts on paper-processing fees for authors of lower income countries, students or authors in financial difficulty. Scientific Research Publishing's paper-processing fees are extremely competitive and are amongst the lowest of any publisher offering open access publication (YES)
5.	Open Astronomy Journal	<p>PUBLICATION FEES: The publication fee details for each article published in the journal are given below:</p> <p>Letters: The publication fee for each published Letter article submitted is US \$600.</p> <p>Research Articles: The publication fee for each published Research article is US \$800.</p> <p>Mini-Review Articles: The publication fee for each published Mini-Review article is US \$600.</p> <p>Review Articles: The publication fee for each published Review article is US \$900.</p> <p>Book Reviews: The open access fee for a published book review is US \$450.</p>

SL. No.	Title of the Journal	Publication Fee
1.	Advanced Studies in Theoretical Physics	<p>The authors are cordially invited to submit papers by e-mail. Please specify the title of the journal and provide us with contact e-mail and mailing address. Manuscripts submitted to the journals of Hikari Ltd will be considered for publication with the understanding that the same work has not been published and is not under consideration for publication elsewhere. Acknowledgement will be sent within a few business days upon receiving of a paper.</p> <p>The papers submitted to our journals are refereed within 2-3 months and upon acceptance the papers are published within 3 months.</p>
2.	Advances in Condensed Matter Physics	<p>Article Processing Charges</p> <p>In an open access model, the publication costs of an article are paid from an author's research budget, or by their supporting institution, in the form of Article Processing Charges. These Article Processing Charges replace subscription charges and allow publishers to make the full-text of every published article freely available to all interested readers. In addition, authors who publish in our open access journals retain the copyright of their work, which is released under a "Creative Commons Attribution License," enabling the unrestricted use, distribution, and reproduction of an article in any medium, provided that the original work is properly cited.</p> <p>Advances in Condensed Matter Physics is an Open Access journal. Publishing an article in Advances in Condensed Matter Physics requires Article Processing Charges that will be billed to the submitting author upon acceptance of the article for publication in accordance with the following table. Manuscript Type APC Research Article \$700 Review Article \$700</p> <p>your institute is a member of Hindawi institutional membership program, you will not be subject to any article processing charges. Please ask your librarian to contact us at memberships@hindawi.com in order to receive a quotation or to arrange for an "Institutional Membership" for your organization.</p>

<p>3.</p>	<p>Advances in High Energy Physics</p>	<p>Article Processing Charges</p> <p>Advances in High Energy Physics is an Open Access journal. Publishing an article in Advances in High Energy Physics requires Article Processing Charges that will be billed to the submitting author upon acceptance of the article for publication in accordance with the following table. Manuscript TypeAPCResearch Article\$800Review Article\$800</p> <p>Institutional MembershipIf your institute is a member of Hindawi institutional membership program, you will not be subject to any article processing charges. Please ask your librarian to contact us at memberships@hindawi.com in order to receive a quotation or to arrange for an “Institutional Membership” for your organization.</p>

5.	Advances in Mathematical Physics	<p>Article Processing Charges</p> <p>In an open access model, the publication costs of an article are paid from an author's research budget, or by their supporting institution, in the form of Article Processing Charges. These Article Processing Charges replace subscription charges and allow publishers to make the full-text of every published article freely available to all interested readers. In addition, authors who publish in our open access journals retain the copyright of their work, which is released under a "Creative Commons Attribution License," enabling the unrestricted use, distribution, and reproduction of an article in any medium, provided that the original work is properly cited.</p> <p>An advance in Mathematical Physics is an Open Access journal. Publishing an article in Advances in Mathematical Physics requires Article Processing Charges that will be billed to the submitting author upon acceptance of the article for publication in accordance with the following table. Manuscript Type APC Research Article\$700Review Article\$700</p> <p>Institutional Membership If your institute is a member of Hindawi institutional membership program, you will not be subject to any article processing charges. Please ask your librarian to contact us at memberships@hindawi.com in order to receive a quotation or to arrange for an "Institutional Membership" for your organization.</p>
6.	Applied Physics Research:	<p>This journal charges the following author fees.</p> <p>Article Publication Fee- Applied Physics Research: 300.00 (USD)</p> <p>If the paper is accepted for publication, you will be asked to pay an Article Publication Fee. Please find payment information at: http://www.ccsenet.org/payment</p> <p>Waiver policy is not applicable. We regret that publication fee cannot be waived or reduced in any case. Accepted manuscripts will not move into the editing process until payment has been received.</p>
7.	Atmospheric Chemistry and Physics	<p>Service Charges</p> <p>Atmospheric Chemistry and Physics is committed to the Open Access model of publishing. This ensures free web access to the results of research and maximum visibility for published papers. However it requires the author or a supporting institution to pay the costs of the review process, typesetting, web publication and long term archiving. These service charges are categorized according to the submitted material and levied for the publication in the</p>

discussion forum, while the publication in the journal is then free of charge. The discussion paper style leads to three times more pages than the classic manuscript style.

Rule of thumb: discussion pages = characters / 1,900 + # tables + # figures
2011 Service Charges for Authors (Subsidized Prices)

The following service charges are valid for any manuscripts submitted from 1 January 2011 where the first author does not belong to an institution with a clear Open Access mandate and budget. To bridge the time gap where Open Access publication charges are not fully established in scientific communities and funding schemes, the European Geosciences Union supports authors with subsidized prices.

Price per

Discussion Page	Description
Category 1 €24 net	LaTeX submissions using the Copernicus Publications LaTeX Package
Category 2 €29 net	WORD submissions using the Copernicus Publications WORD Template
Category 3 €34 net	LaTeX submissions causing higher expenditure of work due to any LaTeX style and/or difficulties with tables/figures
Category 4 €39 net	WORD submissions causing higher expenditure of work due to any WORD style and/or difficulties with tables/figures

Copy-Editing (spelling, grammar, sentence structure): €10 net / journal page, €3 net / discussion page

A manuscript contains 10 pages with 57,000 characters, 2 figures, and 1 table. The discussion paper will have 30 pages text + 1 page table + 2 pages figures. For Category 1, this will result in 33 pages x €24 = €792 net + 19% German VAT.

2011 Service Charges for Institutions (Unsubsidized Prices)

The following service charges are valid for any manuscripts submitted from 1 January 2011 where the first author belongs to an institution with a clear Open Access mandate and budget. These institutions have specific

		<p>agreements with Copernicus Publications and are charged centrally with the non-subsidized prices to reach complete sustainability of the Open Access business model.</p> <p>Price per</p> <table border="1"> <thead> <tr> <th>Discussion Page</th> <th>Description</th> </tr> </thead> <tbody> <tr> <td>Category 1 €30 net</td> <td>LaTeX submissions using the Copernicus Publications LaTeX Package</td> </tr> <tr> <td>Category 2 €35 net</td> <td>WORD submissions using the Copernicus Publications WORD Template</td> </tr> <tr> <td>Category 3 €40 net</td> <td>LaTeX submissions causing higher expenditure of work due to any LaTeX style and/or difficulties with tables/figures</td> </tr> <tr> <td>Category 4 €45 net</td> <td>WORD submissions causing higher expenditure of work due to any WORD style and/or difficulties with tables/figures</td> </tr> </tbody> </table> <p>Copy-Editing (spelling, grammar, sentence structure): The costs for copy-editing will be charged to the authors</p>	Discussion Page	Description	Category 1 €30 net	LaTeX submissions using the Copernicus Publications LaTeX Package	Category 2 €35 net	WORD submissions using the Copernicus Publications WORD Template	Category 3 €40 net	LaTeX submissions causing higher expenditure of work due to any LaTeX style and/or difficulties with tables/figures	Category 4 €45 net	WORD submissions causing higher expenditure of work due to any WORD style and/or difficulties with tables/figures

Category 4 €45 net	WORD submissions causing higher expenditure of work due to any WORD style and/or difficulties with tables/figures											
8.	Atmospheric Chemistry and Physics Discussions	<p>Service Charges</p> <p>Atmospheric Chemistry and Physics is committed to the Open Access model of publishing. This ensures free web access to the results of research and maximum visibility for published papers. However it requires the author or a supporting institution to pay the costs of the review process, typesetting, web publication and long term archiving. These service charges are categorized according to the submitted material and levied for the publication in the discussion forum, while the publication in the journal is then free of charge. The discussion paper style leads to three times more pages than the classic manuscript style.</p> <p>Rule of thumb: $\text{discussion pages} = \text{characters} / 1,900 + \# \text{ tables} + \# \text{ figures}$</p> <p>2011 Service Charges for Authors (Subsidized Prices)</p> <p>The following service charges are valid for any manuscripts submitted from 1 January 2011 where the first author does not belong to an institution with a clear Open Access mandate and budget. To bridge the time gap where Open Access publication charges are not fully established in scientific communities and funding schemes, the European Geosciences Union supports authors with subsidized prices.</p>										

		<p style="text-align: center;">Price per Discussion Page</p> <table border="0"> <tr> <td style="vertical-align: top;">Category 1 Publications</td> <td style="vertical-align: top;">€24 net</td> <td style="vertical-align: top;">LaTeX submissions using the Copernicus Publications</td> </tr> <tr> <td style="vertical-align: top;">Category 2 Publications</td> <td style="vertical-align: top;">€29 net</td> <td style="vertical-align: top;">LaTeX Package WORD submissions using the Copernicus Publications</td> </tr> <tr> <td style="vertical-align: top;">Category 3</td> <td style="vertical-align: top;">€34 net</td> <td style="vertical-align: top;">WORD Template LaTeX submissions causing higher expenditure of work due to any LaTeX style and/or difficulties with tables/figures</td> </tr> <tr> <td style="vertical-align: top;">Category 4</td> <td style="vertical-align: top;">€39 net</td> <td style="vertical-align: top;">WORD submissions causing higher expenditure of work due to any WORD style and/or difficulties with tables/figures</td> </tr> </table> <p>Copy-Editing (spelling, grammar, sentence structure): €10 net / journal page, €3 net / discussion page</p> <p>A manuscript contains 10 pages with 57,000 characters, 2 figures, and 1 table. The discussion paper will have 30 pages text + 1 page table + 2 pages figures. For Category 1, this will result in 33 pages x €24 = €792 net + 19% German VAT.</p> <p>2011 Service Charges for Institutions (Unsubsidized Prices)</p> <p>The following service charges are valid for any manuscripts submitted from 1 January 2011 where the first author belongs to an institution with a clear Open Access mandate and budget. <p>9. Entropy</p>		<p>Why does MDPI have article processing charges (APC) for publishing in its journals?</p> <p>MDPI publishes all its journals in full open access format. The scientific community and the general public can unlimitedly and immediately access all content published in our journals for free as soon as it is published on the Internet. This means that MDPI does not have any income from selling subscriptions to print or online versions of its journals or from charging "pay-per-view" fees. Therefore, MDPI needs to defray its editorial and production costs by collecting article processing charges (APC) from authors' institutes or research funding bodies. MDPI is committed to keep its open access publication charges at a minimum level. Already now, MDPI's charges—if calculated per page—are much lower than the revenues per published page that traditional, subscription-based academic publishers can generate.</p> <p>How much does MDPI charge for its different journals?</p> <p>The amount of article processing charges (APC) for different journals is given in the table below. The basic article processing charges (APC) cover editorial service and production of an article. A separate English editing charge will be applied to articles that require extensive English language editing or formatting. Non-native English speaking colleagues are encouraged to use a professional English editing service before submission of a manuscript. Usually the publication in the first volume of newly launched journal is free of charge</p>

10.	International Journal of Physical Sciences	<p>Fees and Charges: A handling fee of \$450 will be billed to the authors for each manuscript published. Publication of an article in the International Journal of Physical Sciences is not contingent upon the author's ability to pay the charges. Neither is acceptance to pay the handling fee a guarantee that the paper will be accepted for publication. Authors may still request (in advance) that the editorial office waive some of the handling fee under special circumstances.</p>								
11.	Journal of Atomic, Molecular, and Optical Physics	<p>Article Processing Charges In an open access model, the publication costs of an article are paid from an author's research budget, or by their supporting institution, in the form of Article Processing Charges. These Article Processing Charges replace subscription charges and allow publishers to make the full-text of every published article freely available to all interested readers. In addition, authors who publish in our open access journals retain the copyright of their work, which is released under a "Creative Commons Attribution License," enabling the unrestricted use, distribution, and reproduction of an article in any medium, provided that the original work is properly cited.</p> <p>Journal of Atomic, Molecular, and Optical Physics is an Open Access journal. Publishing an article in Journal of Atomic, Molecular, and Optical Physics requires Article Processing Charges that will be billed to the submitting author upon acceptance of the article or publication in accordance with the following table.</p> <table border="1" data-bbox="968 971 2074 1040"> <thead> <tr> <th>Manuscript Type</th> <th>APC</th> <th>Research Article</th> <th>Review Article</th> </tr> </thead> <tbody> <tr> <td></td> <td>\$500</td> <td>\$500</td> <td>\$500</td> </tr> </tbody> </table> <p>Institutional Membership If your institute is a member of Hindawi institutional membership program, you will not be subject to any article processing charges. Please ask your librarian to contact us at memberships@hindawi.com in order to receive a quotation or to arrange for an "Institutional Membership" for your organization.</p>	Manuscript Type	APC	Research Article	Review Article		\$500	\$500	\$500

12.	Journal of Modern Physics	<p>Publication Cost The open access publication cost should be covered by the author's institution</p>								

		<p>or research funds (\$400 for each paper within ten printed pages, and \$50 for each additional page). Scientific Research Publishing may grant discounts on paper-processing fees for authors of lower income countries, students or authors in financial difficulty. Scientific Research Publishing's paper-processing fees are extremely competitive and are amongst the lowest of any publisher offering open access publication.</p>
13.	Journal of Thermodynamics	<p>Article Processing Charges In an open access model, the publication costs of an article are paid from an author's research budget, or by their supporting institution, in the form of Article Processing Charges. These Article Processing Charges replace subscription charges and allow publishers to make the full-text of every published article freely available to all interested readers. In addition, authors who publish in our open access journals retain the copyright of their work, which is released under a "Creative Commons Attribution License," enabling the unrestricted use, distribution, and reproduction of an article in any medium, provided that the original work is properly cited.</p> <p>Journal of Thermodynamics is an Open Access journal. 14.	New Journal of Physics	<p>NJP is completely free to read and is funded solely by article publication charges. The article charge for 2011 has been fixed at the 2010 rate of £650 (independent of article length). You should send your payment to IOP Publishing Ltd, and you may pay in UK pounds sterling, Euros (EUR715) or US dollars (US\$1040). We send invoices for payment after articles are accepted for publication.</p>
15.	Open Applied Physics Journal	<p>PUBLICATION FEES The publication fee details for each article published in the</p>

		<p>journal are given below:</p> <p>Letters: The publication fee for each published Letter article submitted is US \$600.</p> <p>Research Articles: The publication fee for each published Research article is US \$800.</p> <p>Mini-Review Articles: The publication fee for each published Mini-Review article is US \$600.</p> <p>Review Articles: The publication fee for each published Review article is US \$900.</p> <p>Book Reviews: The open access fee for a published book review is US \$450.</p>
16.	Open Chemical Physics Journal	<p>PUBLICATION FEES: The publication fee details for each article published in the journal are given below:</p> <p>Research Articles: The publication fee for each published Research article is US \$400.</p> <p>Review Articles: The publication fee for each published review article is US \$450.</p> <p>Mini-review Articles: The publication fee for each published mini-review article is US \$300.</p> <p>Letters: The publication fee for each published Letter article submitted is US \$300.</p> <p>Book Reviews: The open access fee for a published book review is US \$225.</p>
17.	Open Condensed Matter Physics Journal	<p>PUBLICATION FEES: The publication fee details for each article published in the journal are given below:</p> <p>Research Articles: The publication fee for each published Research article is US \$400.</p> <p>Review Articles: The publication fee for each published review article is US \$450.</p> <p>Mini-review Articles: The publication fee for each published mini-review article is US \$300.</p> <p>Letters: The publication fee for each published Letter article submitted is US \$300.</p> <p>Book Reviews: The open access fee for a published book review is US \$225.</p>
18.	Open Journal of Microphysics	<p>The open access publication cost should be covered by the author's institution or research funds (\$300 for each paper within ten printed pages, and \$50 for each additional page). Scientific Research Publishing may grant discounts on paper-processing fees for authors of lower income countries, students or authors in financial difficulty. Scientific Research Publishing's paper-processing fees are extremely competitive and are amongst the lowest of any publisher offering open</p>

		access publication.				
19.	Open Plasma Physics Journal	<p>PUBLICATION FEES: The publication fee details for each article published in the journal are given below:</p> <p>Research Articles: The publication fee for each published Research article is US \$400.</p> <p>Review Articles: The publication fee for each published Review article is US \$450.</p> <p>Mini-review Articles: The publication fee for each published Mini-Review article is US \$300.</p> <p>Letters: The publication fee for each published Letter article submitted is US \$300.</p> <p>Book Reviews: The open access fee for a published book review is US \$225.</p>				
20.	Open Surface Science Journal	<p>PUBLICATION FEES: The publication fee details for each article published in the journal are given below:</p> <p>Research Articles: The publication fee for each published Research article is US \$800.</p> <p>Review Articles: The publication fee for each published Review article is US \$900.</p> <p>Mini-Review Articles: The publication fee for each published Mini-Review article is US \$600.</p> <p>Letters: The publication fee for each published Letter article submitted is US \$600.</p> <p>Book Reviews: The open access fee for a published book review is US \$450.</p>				
21.	Papers in Physics	Author publication charges until December 2011 are set to USD100 per article (up to 4 pages in final form) plus USD15 per extra page				
22.	Physics Research International	<p>Physics Research International is an Open Access journal. Publishing an article in Physics Research International requires Article Processing Charges that will be billed to the submitting author upon acceptance of the article for publication in accordance with the following table.</p> <table> <tr> <td>Research Article</td> <td>\$500</td> </tr> <tr> <td>Review Article</td> <td>\$500</td> </tr> </table>	Research Article	\$500	Review Article	\$500
Research Article	\$500					
Review Article	\$500					
23.	Progress in Physics	<i>Progress in Physics</i> is a non-commercial, academic edition. The authors are requested to pay the page charges and postal charges, to cover the printing cost and distribution. Page charges are determined by the final page length. Upon publication, the authors of each paper will be sent 3 copies of the journal. Additional copies of the journal can be purchased. The current charge is US \$25.00 for one				

		typeset journal page plus postal rates per shipment
24.	Research Letters in Physics (Continued by Physics Research International)	Physics Research International is an Open Access journal. Publishing an article in Physics Research International requires Article Processing Charges that will be billed to the submitting author upon acceptance of the article for publication in accordance with the following: Research Article \$500 Review Article \$500
25.	Revista Colombiana de Física	Publication charges applicable
26.	<u>Revista Mexicana de Física</u>	Article Processing Charges that will be billed to the submitting author
27.	SRX Physics	In this Open Access model, the publication costs are usually covered by the author's institution or research funds. These Open Access charges replace subscription charges and allow the publishers to give the published material away for free to all interested online visitors. In addition, authors who publish in our Open Access journals retain the copyright of their article.
28.	Superficies y Vacío	Submit manuscripts for revision in a standard format some details are indicated below. If necessary, a fee of around \$100 U.S. dollars per accepted paper could be charged to the authors. This could be necessary to finance the cost of publication of Superficies y Vacío.
29.	Symmetry	For <i>Symmetry</i> (ISSN 2073-8994), authors are asked to pay a fee of 300 CHF (Swiss Francs) per processed paper, but only if the article is accepted for publication in this journal after peer-review and possible revision of the manuscript. An additional fee of 250 CHF may apply for those articles that need major editing and formatting and/or English editing. Note that many national and private research funding organizations and universities explicitly cover such fees for articles originated in funded research projects.
30.	World Journal of Condensed Matter Physics	The open access publication cost should be covered by the author's institution or research funds (\$300 for each paper within ten printed pages, and \$50 for each additional page). Scientific Research Publishing may grant discounts on paper-processing fees for authors of lower income countries, students or authors in financial difficulty. Scientific Research Publishing's paper-processing fees are extremely competitive and are amongst the lowest of any publisher offering open access publication.
